TCA Music and Athletic Facility

Announcing our newest job in Colorado Springs!

The Classical Academy in Colorado Springs, Colorado is constructing a new addition which includes a wrestling gym, weight room, locker rooms, storage areas, offices, and music rooms for choir/band large rehearsal areas.

Small-to-medium-sized ensemble rehearsal spaces and practice rooms. With the level of multi-use activities being conducted acoustics, sound isolation, noise and vibration control strategies shall be employed on the project to provide ideal acoustical environments for the students, teachers, and the school community who will use the facilities.

Elder Construction is on site and has broken ground on the 1 story 27,340sqft addition to the existing K-12 school. We look forward to joining them soon to complete Interior/ exterior framing, drywall and the very important acoustical ceilings. We wish the Students and facility a safe year back at school.

In-N-Out Jobsite Spotlight

You may have heard of In-N-Out Burger? Originally from California, In-N-Out is most famous for its animal style burger and soon (maybe not soon enough) we will be able to taste that burger right here in our state!

Colorado's first In-N-Out restaurant has broken ground in Colorado Springs. The popular California-based burger chain first announced plans to establish a presence in Colorado in 2017. The land was purchased in the Victory Ridge development at Interquest Parkway and Federal Boulevard in Colorado Springs.

The first phase of development is underway, In-N-Out is building a 97,900sqft distribution and burger-patty making facility. Along with a 150,000sqft office building complete with helipad.

Senior General Superintendent Craig Kelly and Senior Project Manager Bobby Yelinski are well underway with the construction of the 97,900sqft distribution center. Currently we are 55% complete with the job. Our scope of work has included interior/exterior framing, drywall, acoustical ceiling panels, trusses. We are on track to be completed by the end of October, says Bobby Yelinski.

On June 11 Reuben (TJ) Trujillo (Quality Control), was onsite to observe flying/Installing pre-assembled roof sections at all the different plant entrances. There were 5 towers total.

Evan Losee, Certified Rigger coordinated all aspects for the lift operations. Communication was very critical for this task. The grounds crew connecting the trusses, the crew within the lifts setting the trusses, and the crane operator flying the trusses all did a great job to ensure safety as the main priority and efficiency for their work. The operation was scheduled to be completed in 1 1/2 days and they completed all the towers in a little more than half a day. Great job Evan and team, we look forward to bringing In-N-Out to Colorado!

1616 Market Street Jobsite Spotlight

Hyatt announces plans for Thompson Denver. After three years of planning this project it has finally broken ground and is scheduled to make its debut in 2021. Developed by T2 Hospitality, a leading hospitality developer in the Western United States, the 11-story boutique hotel will be designed as a modern-day chalet, with architecture by Denver's DLR Group and interiors by internationally-acclaimed, award-winning firm Parts + Labor, in collaboration with the Thompson Hotels design team. The 216-room Thompson Denver will provide travelers with a sophisticated lifestyle experience from the moment of arrival.

Layton Construction is the General Contractor working alongside them is Project Manager Brian Baumgardner, General Superintendent Joe Scalora and Field Superintendent Alonzo Duarte.

Congrats Kyle Montague for 25 AMAZING Years of Service!

"I want to congratulate Kyle on 25 years of service. His professionalism, honesty, and loyalty are certainly deserving of our thanks. As I am sure this milestone is a significant event for him, it is also a special occasion for us to recognize his loyalty over the years. Kyle, you are a valued member of our team and your contributions have always been and will always be of great value in the future success of Spacecon. Thank You."
- Scott Mansfield

"Kyle, you are always a pleasure to work with. These past 25 years have been an honor to share with you. You always look at things differently and ask can we try this or improve like this. You pay attention to detail and are not afraid to take on new or different scopes. But mostly thank you for helping with my IT, quick bid and on screen take off problems."
- Craig Kelly
