FEBRUARY 22, 2022

### In this Issue

- Thompson Denver Earns Award of Excellence
- Spacecon Earns Diamond Level STEP Award
- Spacecon Named Accredited Quality Contractor by ABC
- Holiday Party Photos
- Employee Service Awards

## Thompson Denver Earns Award of Excellence

ABC Rocky Mountain Chapter's Excellence in Construction Awards (EIC) is one of the largest commercial building construction events in Colorado. Contractors, Owners, Architects, Engineers, and more gather to celebrate as we highlight the successes of our Merit Shop contractor members and their projects. A panel of judges who represent a cross section of construction industry experts use a point system to determine winners within project categories.

In 2021 we had the opportunity to compete for honors in the construction industry's premier annual awards program and celebrate the team of Thompson Denver at the Excellence in Construction (EIC) Awards. Congratulations to all those involved in the Thompson Denver project the project is beautiful and you deserve the top award you earned - Excellence in Construction.

## Spacecon Earns Diamond Level Step Award!

STEP is a world-class safety management system that dramatically improves safety performance among participants regardless of company size or type of work. ABC member firms measure their safety processes and policies on 24 key components through a detailed questionnaire with the goal of implementing or enhancing safety programs that reduce jobsite incidents. In order to receive an award, we must meet specified standards in various areas of construction safety. STEP awards are granted by ABC National based on total number of points received in 24 key elements of a contractor's safety program as well as Bureau of Labor Statistics and OSHA statistics.

## Spacecon Named Accredited Quality Contractor by ABC

Achieving Elite Status in Safety, Education and We are proud to announce that we have again been named an Accredited Quality Contractor by Associated Builders and Contractors, the prestigious credential for its commitment to corporate responsibility. Only 229 of the nation's elite merit shop construction contractors earned the credential in 2020.

Launched in 1993, ABC's AQC program provides recognition to world-class construction firms that have documented their commitment in five areas:

- Quality
- Safety performance
- Talent management
- Craft and management education
- Community relations, inclusion, diversity and equity

"Accredited Quality Contractors are the types of companies I want to work for and do business with because of the priority placed on world-class safety, culture, workforce development, innovation, diversity and quality," said 2021 ABC National Chair of the Board of Directors Steve Klessig, vice president of architecture and engineering, Keller Inc., Kaukauna, Wisconsin. "Congratulations to the leadership and employees of Spacecon Specialty Contractors for your daily commitment to corporate and community service; you exemplify the merit shop philosophy and what's best about ABC membership."

In earning the AQC credential, each member company commits to world-class safety by achieving Gold, Platinum or Diamond level in [ABC's STEP Safety Management System](#). Founded more than three decades ago, STEP dramatically improves safety performance among construction industry participants, with top performers achieving incident rates more than [eight times safer than the U.S. Bureau of Labor Statistics industry average](#).

AQC members also take the following pledge:

*As an Accredited Quality Contractor, our company is committed to providing our clients with the highest quality construction services, and we care deeply about our employees and the communities in which we build. We are proud to be part of the construction industry and are dedicated to the principles of free enterprise. We commit ourselves to serve our communities and provide our employees with the skills they need to work safely and productively in order to meet the needs of our clients.*

AQC is recognized by [Construction Users Roundtable](#), an organization founded by leading construction project owners.

**About ABC:** Associated Builders and Contractors is a national construction industry trade association established in 1950 that represents more than 21,000 members. Founded on the merit shop philosophy, ABC and its 69 chapters help members develop people, win work and deliver that work safely, ethically and profitably for the betterment of the communities in which ABC and its members work. Visit us at [abc.org](#).

## Thank you all to coming out and celebrating the end of another year!
