Altru Hospital

Altru Hospital is currently underway in Grand Forks, North Dakota. Construction on the \$470 million project, which has been in the works for several years, was suspended for about 18 months as Altru Health System grappled with the extraordinary challenges imposed by the COVID-19 pandemic. Construction re-started September 2021, with completion expected in the fall of 2024. The hospital project comprises seven floors, 226 inpatient beds, a 16-bed observation unit, negative pressure unit, private neonatal intensive care unit (NICU), private pre/post-operative rooms, operating rooms, dedicated trauma operating room, and trauma elevator for quick transport.

On September 8th, Altru Health System held the Topping Off Ceremony – a tradition in the construction industry – the 13-foot, 300-pound beam was lifted by a crane into place in the framework of the structure’s seventh floor. The steel beam — which is ceremonial, not structural — bears the signatures of about 400 Altru Health System employees and 200 or so construction workers. It will be visible in an employee hallway.
